# The Fayette Falcon.

ESTABLISHED 1866.

SOMERVILLE, TENNESSEE, FRIDAY, AUGUST 18, 1916.

NEW SERIES: VOL. X, -NO. 8.

## COUNTY NEWS.

### MOSCOW.

A farm paper says "one reason why there are not more good boys, is because good fathers are so scarce." About right.

The Moscow Hotel is the new name given the old Holmes Hotel by the new manager Mrs. Mattie Whitaker Barlow. An attractive sign hangs in front of the house containing the new name.

Esquires Pearce, Ross and Summers and Sheriff Jordan were down this way the past week and visited where the work house gang is located repairing the road, or making one, near Roseville.

Mr. H. O. Harrison has accepted a position as bookkeeper at the Bolivar Asylum and will assume the duties about August 25. Our people learn this news with regret and we give this estimable family up with much reluctance.

Dr. and Mrs. Musgrave have been visiting relatives in Brownsville.

Mrs. L. Weinstein and child are visiting relatives near Greenfield.

Dr. J. M. Stevenson has a large type Poland-China sow, 17 months old weighing 450 pounds. Make a pretty good entrant in the Fayette County fair.

G. C. Gaither, J. L. Crossett Jr., Johnnie Owen, Pratt Bobbitt, Harry Davis, Dave Hawkins, J. J. Burnett Sr., and Norman Burnett took in the picnic Thursday at Holly Springs.

Mrs. J. D. Crossett is visiting her son in Jackson, Florida.

W. E. Robinson has returned from a vacation spent with friends in Kentucky.

Richard Ware who is with the State troops, has recently been advanced to a Corporal.

The many friends of Mr. John Ward are pleased to know he is recovering from a recent severe illness.

D. J. Douglass was here from Somerville Tuesday.

Mr. and Mrs. G. T. Bowling left Sunday for Salisbury where they will visit relatives before returning to their home in Van Buren.

Things had passed along smoothly at the board meeting Friday night held in the office of Mayor J. M. Stevenson, and the meeting had just been adjourned when all of a sudden and without warning, Dr. F. L. Morris who had been a silent watcher during the proceedings of the town fathers, quickly arose from his seat and drawing a pistol from his hip pocket began to—but the pistol was glass and all a joke.

Mrs. R. L. Wilson and J. D. Pearce spent the Sabbath with Mrs. A. E. Furcon.

Mrs. Ola Sanders was a recent guest of local relatives.

Boyd Burnett has the local agency for the Dodge automobile. It is a fine car.

It is expected that the proper officials will have the weeds cut around the town during the present week. The

work will be done by those desiring to work out their street tax.  
Rev. Lea occupied the pulpit at the local Baptist church Sunday in the absence of the pastor, Rev. Berkstresser.

**The Quinine That Does Not Affect The Head**  
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of R. W. GROVE. 25c.

**IMITATION IS SINCEREST FLATTERY**  
but like counterfeit money the imitation has not the worth of the original. Insist on "La Creole" Hair Dressing—it's the original. Darkens your hair in the natural way, but contains no dye  
Price \$1.00. 9-1

## Mexico and the Vanilla Bean.

Summer, the season of the year when every housewife takes pride in serving her own made ice cream, cakes, desserts, and other pastries, being near we wonder how many of our readers know that the Mexican Vanilla Bean constitutes the most important factor in the manufacture of Vanilla Extract, which adds so much to the taste and flavor of these delicacies.

The Vanilla plant is an orchid, having roots in the air as well as in the ground. It clings to trees or frames twining around it as it grows, and favors most a light, loose soil, well drained with "quilted sunshine and leaf shade," a condition naturally brought about by the foliage of the protecting trees.

The finest grade Vanilla Bean is grown in Papantla, Mexico about 375 miles North of Vera Cruz. The average Vanilla Bean is 7 to 8 inches in length and 1 to 1 1/2 inches in thickness before cured. It is very juicy, round, contains thousands of little black seeds and of a green color, after being thoroughly cured it assumes a brownish color. To bring out the rich aromatic and delicious flavor of Vanilla Beans the process of manufacture employed takes from two to three years from the time the Bean is macerated or soaked until the Extract is bottled.

Mr. R. E. Buford, the Raleigh retailer in this locality kindly loaned us a Sample sent him by his Company, which is one of the original of the first and only carload shipment ever made in the world. He informs us that his company has had many requests for these Samples from College and High School professors, principals and school teachers, preachers and many Clubs and societies all over the country who use them in lectures and discussions.

Mr. R. E. Buford has consented to loan all interested in this subject his Sample for the purpose of education. Women's Clubs, who are interested in Extracts and Women Canvassers would undoubtedly like to see this fine Sample which is now on Exhibition at this office. adv-It

## C. A. Litterero Drowned Near Nashville.

News was received in Nashville this morning that Mr. Charles A. Litterero, aged 78 years, had been drowned in Little Harpeth river near Brentwood, in Williamson county. Meagre details of the accident had been received in the city this morning. According to reports received, Mr. Litterero had gone to the river, where he had been accustomed to go in bathing while in the country, and after that time he was missed. Later a search was made for him and he could not be found. His body was found about 9 o'clock this morning. It was thought that Mr. Litterero had been seized with cramps while in bathing, and there being no one present to assist him, he was drowned.

Mr. Litterero was a member of one of the most prominent families in Davidson county and leaves a large family. His home was near Glendale park, south of the city.

The above which appeared in the Nashville Banner of Monday, August 14, brought the details of this very sad occurrence, confirming a telegram which had been received here. Mr. Litterero was the father of Mrs. Howard M. Rhea of this city, and both Mr. and Mrs. Rhea were in Nashville at the time of the accident. The sympathy of a host of Somerville friends go out to them in their sad bereavement.

## A Well-Known Resident

### Mr. Lightfoot Tells of an Inter- esting Experience.

There are few men in Somerville better known—none whose opinion would better be respected than Mr. Lightfoot's. He is only one of many Somerville people who have given Doan's Kidney Pills their public indorsement. Surely Somerville readers cannot ask for more convincing evidence.

F. H. Lightfoot, lumber dealer, Somerville St., Somerville, says: "I tried Doan's Kidney Pills and found them to be all they are claimed to be for weak and disordered kidneys. I had been troubled in that way for several months. I had sharp, piercing pains through the small of my back. This complaint hindered me in doing my work and I felt miserable while the attack lasted. Doan's Kidney Pills were just what I needed, relieving the pains in my back and making my kidneys normal."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Lightfoot had. Foster-Milburn Co., Props., Buffalo, N. Y.

## A Warning.

In view of the fact that there are epidemics of typhoid fever in our nearby cities, and that our towns and communities are hosts for an alien population at this season of the year, I issue this warning to every citizen to see that his closets and places where disease breeding filth accumulates are put in sanitary condition and kept scrupulously so for at least the next few months.

A person visiting our community who has had or may yet have typhoid fever would in all probability be a typhoid carrier. It is proved that he may remain so for years to come unless he has taken proper urinary and intestinal antiseptic treatment.

Our foods, milk and water can easily be contaminated upon the advent of such an one. Unless this warning is heeded the careless one will almost surely have cause to regret his neglect of true citizenship.

Vaccination offers almost certain immunity for two and one-half years and may be four or five.

Yours for protection,  
J. K. CRAWFORD, County Physician

**Lax-Fos, A Mild, Effective Laxative & Liver Tonic**  
Does Not Grip nor Disturb the Stomach.

In addition to other properties, Lax-Fos contains Cascara in acceptable form, a stimulating Laxative and Tonic. Lax-Fos acts effectively and does not grip nor disturb stomach. At the same time, it aids digestion, arouses the liver and secretions and restores the healthy functions. 50c.

## Didn't Turn Over

Ross "Dead Quick Spray" kills bedbugs, ants, fleas, vegetable and plant insects so dead, and does it so quickly, that people exclaim, "They didn't turn over." It puts mosquitoes out of business just as quick.

## Building of New Church Is Going Forward Rapidly.

The building committee and others interested are expressing gratification at the progress being made in the erection of the new Methodist church building. The work has now reached a stage where the exterior of the finished building can in a measure be foreseen and appreciated, the walls having reached the level of the auditorium ceiling. The Flemish bond design which is being used in laying the brick of the outside veneer, with the wide "raked" mortar joints, relieves the otherwise rather severe architectural lines, and the turning outward of the fire-darkened end of alternate or "tie" bricks, gives an appearance most pleasing.

The immense "I" beams or steel girders, each weighing more than three tons have been hoisted to their places where they will bear the weight of the super-structure and the roof and will form the support of the ceiling of the main auditorium. Next week, it is said, will very probably witness the completion of the brick walls, and the building committee purposes to go forward speedily with the work of completing the structure.

The proposals by certain members of the congregation to donate art glass windows and use them as memorials to departed relatives or as family memorials are being entertained by the committee, and they would be gratified if every window in the church could be so employed. This would add a feature which will not only beautify but will be a matter of sacred and historical interest for future generations.

The location and dimensions of the nine rooms flanking the main auditorium can now be readily discerned, and members of the church and others are watching the daily progress of a building to which the attention of visitors will be called with much civic pride in the years to come.

## A Texas Wonder

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism, and all irregularities of the kidneys and bladder in both men and women. Regulates bladder trouble in children. If not sold by your druggist will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for Tennessee testimonials. Dr. E. W. Hall, 2926 Olive street, St. Louis, Mo., Send for Tennessee testimonials. Sold by druggists. tf

## G. W. Locke Buys Business at Warren.

G. W. Locke, the west side groceryman, announced Tuesday his purchase of the Griffin general store at Warren. The purchase includes the store house and lot, stock and fixtures, and Mr. Locke has already taken charge, assuming possession immediately after the consummation of the deal. Roy Tomlin will be placed in charge of the Warren store, which will be conducted as heretofore, carrying a general line of merchandise. Mr. Locke, however, proposing carrying a larger and more varied assortment of goods than has been the custom of the store.

**Drives Out Malaria, Builds Up System**  
The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c.

## A Note to the Methodist Con- gregation.

Rev. Mr. Wilson returned home last week, and purposed to attend services at the Court House last Sunday, where Dr. Baskerville preached, but he thought it was not safe to be out in the hot weather. He prepared the following note, which was read by Mr. C. W. Crawford at the morning services, with the last paragraph added:

"It was my purpose to be at worship today, to hear Dr. Baskerville and to say a few words to you myself; but I think it hardly wise to attempt it. On leaving home in June I hoped to return to my work within three or four weeks; and while I did improve the doctors thought it not safe for me to attempt any taxing work so soon, and they now advise that I withhold active service during the extremely hot weather.

In the meantime we will try to keep up satisfactory arrangements for you.

We purpose planning for the membership to carry on the general church work, which really would be a wise thing to do, if I were perfectly well. I think the church has attended to its various interests most admirably during my absence, and I most heartily commend you, I am delighted, as I know you are, with the new church building, so far, and as it promises to be. I thank you for the many kindnesses shown my family and me during my sickness. I shall be glad to begin other effective service for you just as soon as possible.

Several members have under consideration the donation of money for memorial windows for the new church. We commend such expressions of sacred remembrance, and hope that others will offer like provision. If so notify Mr. C. W. Crawford, secretary of the building committee.

Yours very truly,  
G. W. WILSON."

Somerville, Tenn., Aug. 13, 1916.

## Mid-Summer Excursions to TEXAS

Arkansas, Louisiana and  
Oklahoma
